

YOUR CHOICE

STEADY disc brake pads offer reliable, long lasting and excellent braking power. The company is concentrated on development of qualitative brake pads, corresponding to highly technological security aids, without content of ASBES-TOS. Our emphasis on product quality provides you with - safety, quality and availability. Every STEADY disc brake pad set includes the complete hardware kit to finish the job.

FRICION MECHANICAL ATTACHMENT SYSTEM

Specially designed to dramatically reduce the shear. Mechanical attachment system offers aggressive and reliable hook-net intended for provisioning optimum mechanical retention of the friction material. The technology provides an additional guarantee in cases where a particular level of attachment required.
